Motivated and Dynamic Full Stack Web Developer | React.js & Next.js Specialist | Problem Solver | AI Integration Enthusiast

Professional Summary

Motivated and detail-oriented Full Stack Web Developer skilled in building responsive, scalable, and modern web applications using React.js, Next.js, Node.js, Express, and MySQL/MongoDB. Strong ability in front-end ,JWT-based authentication, and AI-powered API integration, with proven success in projects .Originally trained as a Medical Laboratory Scientist, now leveraging technology to deliver impactful digital solutions for education and healthcare.A fast learner with strong teamwork, leadership, and communication skills, capable of thriving in fast-paced, collaborative environments.

Core skills and Technologies

- Full Stack Development (React.js, Next.js, Node.js, Express.js, MySQL, MongoDB)
- Frontend Development (HTML5, CSS3, JavaScript ES6+, Bootstrap, TailwindCSS)
- Authentication & Authorization (JWT, Bcrypt)
- RESTful API Design & Integration
- AI Integration (Google Gemini API, ChatGPT API)
- Cloud Deployment (Netlify, Render, Firebase)
- Debugging & Version Control (Git, GitHub)
- Agile Development & Problem Solving
- Cross-Team Collaboration & Communication

Professional Experience

◆ **Medical Laboratory Professional**

- ✓ Bati Primary Hospital | Oromia, Ethiopia | 2021 – Present

Technical Projects

1 Evangadi Forum

- ✓ React | Node.js | Express | MySQL | JWT | AI Integration
- ✓ Developed a full-stack Q&A platform for asking and answering technical questions.
- ✓ Implemented JWT-based authentication,
- ✓ RESTful APIs, and AI-assisted answer suggestion using Google Gemini API.
- ✓ Designed dynamic routes and secure backend architecture for efficient performance.
- ✓ Integrated user profile management and role-based access for moderators.
- ✓ Optimized database queries and improved page load by caching responses.

2. Netflix Clone

- React | Firebase | API Integration
- Developed a Netflix-style streaming UI using React components.
- Integrated TMDB API for dynamic movie data and Firebase Authentication for secure login.
- Focused on responsive UI and optimized performance.

3. **Amazon Clone**

- ❖ React | Node.js | MySQL | JWT
- ❖ Built an eCommerce platform with cart management, checkout simulation, and order tracking.
- ❖ Secured API communication using JWT and encrypted user credentials with Bcrypt.
- ❖ Focused on seamless frontend-backend integration and product filtering.

4. Abe Garage Management System

- ✓ React | Node.js | Express | MySQL
- ✓ Designed a garage management dashboard to handle customers, services, and payments.
- ✓ Implemented admin authentication, and data filtering for efficiency.
- ✓ Used responsive layout and modern design principles.

5. **Portfolio Website**

- ✓ HTML | CSS | JavaScript | EmailJS | Google Analytic s
- ✓ Built a personal portfolio showcasing skills, projects, and contact form.
- ✓ Integrated EmailJS for direct messaging and Google Analytics for visitor tracking.
- ✓ Designed with accessibility and clean UI principles in mind.

Education

1. B.Sc. in Medical Laboratory Science Wollo University, Ethiopia (2015 – 2019)
2. Full-Stack Web Development Scholarship Evangadi Tech, Ethiopia (2024 – 2025)
